The Ford Ranger EV (Electric Vehicle) is a battery electric vehicle that was produced by Ford. It was produced starting in the 1998 model year through 2002 and is no longer in production. It is built upon a light truck chassis used in the Ford Ranger. A few vehicles with lead-acid batteries were sold, but most units were leased for fleet use. A few persistent and interested private parties were ...

The issues related to the 6.0L Power Stroke Diesel engine have long been in the news. Consumers are enraged over the poor quality of the diesel engine in Super Duty Trucks and Excursions.. Manufactured by Navistar, these defective engines were used in Ford trucks from 2003 to 2007.. Ford owners have been arguing that the 6.0L diesel engine is faulty since it first came out.

Automotive Electrical Connectors. While doing various wiring tasks on my cars and in particular, while rewiring my 1975 Suburban, I have learned a lot about various wire connectors used in the automotive realm. I started this page as a personal "crib sheet" so I could keep track of what connectors and terminals were used in what places and to cross-reference the names I found to something I ...
