The T engine's cooling system reflected the T's simplicity design theme. The first few hundred Model Ts had a water pump, but it was eliminated early in production. Instead, Ford opted for a cheaper and more reliable thermosyphon system. Thermosyphon was a common engine-cooling method of the era.

Ford Model T engine - Wikipedia

The first prototypes of the new Henry Ford & Son tractor, which would later be called the Fordson, were completed in 1916. World War I was raging in Europe, and the United Kingdom, a net importer of food, was desperate for tractors in its attempt to expand its agriculture enough to feed Britain despite the great shipping disruption of the war. In 1917, the British Ministry of Munitions selected ...

Okay, so we've seen some articles that touch on basic Kubota servicing and maintenance. Things that every Kubota equipment owner should get in the habit of doing and performing themselves. So what happens if you do notice that the water pump needs replacement or that the brake shoes are looking a little thin? Essentially there are two courses of action when your Kubota needs servicing or ...
