In international relations, aid (also known as international aid, overseas aid, foreign aid or foreign assistance) is – from the perspective of governments – a voluntary transfer of resources from one country to another.. Aid may serve one or more functions: it may be given as a signal of diplomatic approval, or to strengthen a military ally, to reward a government for behaviour desired by ...

United States foreign aid is aid given by the United States government to other governments. It does not include money from private charitable organizations based in the United States, or remittances sent between family members. There are two broad categories: military aid and economic assistance. The Congressional Research Service divides it into five categories: bilateral development aid ...
