Services Outstanding Service, Quality & Accuracy. Founded in 1964, Uintah Engineering & Land Surveying (UELS) has grown into one of the Intermountain West's largest providers of Land Surveying, Civil Engineering, Civil Drafting and GIS services for the Oil & Gas, Energy, Industrial, Commercial and Residential markets.

Land Surveying, Drafting, Engineering - Uintah Group

The term benchmark, or bench mark, originates from the chiseled horizontal marks that surveyors made in stone structures, into which an angle-iron could be placed to form a "bench" for a leveling rod, thus ensuring that a leveling rod could be accurately repositioned in the same place in the future. These marks were usually indicated with a chiseled arrow below the horizontal line.

Forest inventory is the systematic collection of data and forest information for assessment or analysis. An estimate of the value and possible uses of timber is an important part of the broader information required to sustain ecosystems. When taking forest inventory the following are important things to measure and note: species, diameter at breast height (DBH), height, site quality, age, and ...
