Forging is one of the oldest known metalworking processes. Traditionally, forging was performed by a smith using hammer and anvil, though introducing water power to the production and working of iron in the 12th century allowed the use of large trip hammers or power hammers that exponentially increased the amount and size of iron that could be produced and forged easily.

Supreme Commander: Forged Alliance is a standalone real-time strategy video game expansion to Supreme Commander, and was released in November 2007, developed by Gas Powered Games and published by THQ, and the second title in the franchise. Because it is a standalone expansion, it is possible to play without owning Supreme Commander, although without a valid CD key for Supreme Commander online ...
