In microeconomics, supply and demand is an economic model of price determination in a market. It postulates that, holding all else equal, in a competitive market, the unit price for a particular good, or other traded item such as labor or liquid financial assets, will vary until it settles at a point where the quantity demanded (at the current price) will equal the quantity supplied (at the ...

The fovea lies in the middle of the macula area of the retina to the temporal side of the optic nerve head (Fig. 13a, A, B). It is an area where cone photoreceptors are concentrated at maximum density, with exclusion of the rods, and arranged at their most efficient packing density which is in a hexagonal mosaic.

A closed platform, walled garden, or closed ecosystem is a software system wherein the carrier or service provider has control over applications, content, and media, and restricts convenient access to non-approved applications or content. This is in contrast to an open platform, wherein consumers generally have unrestricted access to applications and content.

Constitutional Issues. The American Constitution is an extraordinary document. It could have been written only by a Biblically based society. President Harry S Truman stated in his address to the Attorney General's Conference, February 1950: "The fundamental basis of this nation's laws was given to Moses on the Mount. The fundamental basis of our Bill of Rights comes from the teachings we get ...
