Four coverage options to meet your driving needs Powertrain Coverage: ENGINE (GAS OR DIESEL) All internally lubricated engine parts including: pistons, piston rings, piston

www.cornerstoneunited.com

Twin-turbo or biturbo refers to a turbocharged engine in which two turbochargers compress the intake charge. The most common layout features two identical turbochargers in parallel; other twin-turbo layouts include sequential and staged turbocharging, the latter of which is used in diesel auto racing applications.

Twin-turbo - Wikipedia

A residual-current device (RCD), or residual-current circuit breaker (RCCB), is a device that instantly breaks an electric circuit to prevent serious harm from an ongoing electric shock.Injury may still occur in some cases, for example if a human falls after receiving a shock, or if the person touches both conductors at the same time [citation needed].

Residual-current device - Wikipedia

Over five years we've tested 48 space heaters, and the Vornado VH200 is the heater you should get. A lot of heaters feel like sitting in front of a hair dryer, but our pick (and other Vornado heaters we tried) warmed an entire room faster and more comfortably than everything else we tested.
